## **II. Course Descriptions**

### **Cross Country:**

A track with climbs, single track and fire roads that will test riders endurance. The course travels around the Attitash ski resort area with lots of ups and downs to keep riders on their toes. Also, get a preview of a leg of Sunday Enduro course. The course is 3 miles long with around 1000 ft of vertical.

### **Enduro:**

Two Stage Enduro Sprint with a untimed hill climb between stages. Courses are both loamy and fun with lots of turns. They are challenging for all abilities but not overly technical.

### **Short Track Cross Country:**

Fast and fun - the short track will challenge all racers with tight turns and scenic views of the Saco River. Don't fall in! The course is 0.6 miles long.

### **Downhill:**

Rooty, rocky, technical, fast, fun; the DH course is quintessential Attitash.
